

**Jadavpur University**

**Re -test for BE 4th year 1<sup>st</sup> semester**

**Time -1 hr**

**Marks -30**

**Those who have skipped CT1 will do Class Test 1**

**Those who have skipped CT2 will do Class Test 2**

### **Class Test 1**

1. Consider a Complete Graph of 5 nodes. Describe a Leader Election Algorithm for it considering synchronous round. Count the No of rounds. (15+7)
2. What is global and local clock? Illustrate for a graph. (8)

### **Class test 2**

- ✓ 1. Describe Kshemkalyani Algorithm for dead lock detection. Run the algorithm for 4 nodes with all having degree 2. Analyse the algorithm. (10+8+5)
2. Write the Applications of Mutual Exclusion Methods. (7)
